

2025-2026
Residency Committee Report
October 21, 2026

Committee Members:

Chair, Virginia Leathers, West Texas A&M University
Chris Reed, Texas A&M University
Mark Ammann, Dallas College
Rhonda Bolton, Collin College
Stephanie Snedden, The University of Texas Health Science Center at Houston
Val Garcia, The University of Texas at Austin
Emily Voulgaris, Wharton County Junior College

The Residency Committee met via Zoom several times over the year to discuss priorities. All committee members participated and provided helpful information to develop the goals for the 2025-2026 cycle. A list of the following accomplishments has been achieved:

- A comprehensive list of residency officers, contact information, and weblinks.
- A best practices Q&A was created on the changes for Fall 2025 residency.
- The TACRAO Residency Committee hosted two sessions at the 2026 Summer Meeting that included residency updates, residency Q&A, and case studies.
- We will be hosting two sessions at the 2026 Annual Conference which will include training in the basics and advanced residency practices.

Items for 2026-2027 cycle:

- A residency webinar for any changes to residency for the next cycle. We tried to get one off the ground for the Fall 2025 changes, but it was a challenge due to scheduling and technology issues. This needs to be a priority when there are state changes. There needs to be a guide created for committee chairs on how to set up a TACRAO webinar.
- Request for creating a drop down for Residency materials on the TACRAO Resource page to upload residency officer list, presentations, document guide, and best practices Q&A materials to help serve the TACRAO organization.

Respectfully Submitted,
Virginia Leathers, Chair
