

2025-2026
Technology Standing Committee Report
October 21, 2026

Committee Members:

Chair, Kyle Phillips, Texas Tech University
Kim Ketelsen, The University of Texas at Arlington
Jay Hills, The University of Texas Health Science Center at Houston

Committee Activities

At the request of the TACRAO Executive Committee, the Technology Standing Committee evaluated five electronic voting platforms to support TACRAO's voting needs: Simply Voting, NemoVote, Association Voting, ElectionBuddy, and BigPulse.

Five vendor demonstrations were scheduled on February 17, February 24, and February 25, 2026.

Accomplishments and Outcomes

Following its evaluation, the committee recommended ElectionBuddy as the preferred electronic voting solution. The TACRAO Executive Committee accepted the recommendation.

Looking Ahead

The Technology Standing Committee can continue to serve as a resource to TACRAO leadership by evaluating technology solutions and providing recommendations as organizational needs arise.

Respectfully Submitted,
Kyle Phillips, Chair
