    - March 26, 2026
        - Agenda
            - Scholarship process
                - Application open/close dates
                - Committee deadline to choose
                - Deadline to submit to TEC
            - SEM Workshop Presenter
            - Session ideas for annual conference
    - All other collaborations were done by my email to include:
        - Review, voting, and submitting scholarship candidates
        - Reviewing options for SEM Workshop presenters
- Challenges
    - The committee members changed throughout the year. Over the last couple of years that I have been involved, it seems to be a challenge for the committee members (not excluding myself) to find the time to get together to even discuss the scholarship applicants and workshop presenters (including email replies at times).

Respectfully Submitted,
Tammy Denney, Chair
